

## School of Computing and Information Technologies

## **PROGCON - CHAPTER 3**

CLASS NUMBER: 09

SECTION: BSTM181

NAME: DELA FUENTE, Mane Therese N.

DATE: 11 | 15 | 19

## PART 1: Identify the following.

60 to - less programming 1. A name to describe structured programming, because structured programmers do not use a "go to" statement.

While ... do (while) 160p 2. A process continues while some condition continues to be true.

STACKING STMCTMRS 3. Act of attaching structures end to end.

Nesting stmothers 4. Act of placing a structure within another structure.

Repetition & Heration 5. Alternate names for a loop structure.

If-then-else 6. Another name for a selection structure.

Selection (Pecision) 7. Ask a question and, depending on the answer, take one of two courses of action. Then, no matter which path you follow, continue with the next task.

Gructure 8. Basic unit of programming logic; each structure is a sequence, selection, or loop.

NUIL CARE (NUIL Branch)9. Branch of a decision in which no action is taken.

vegnence similar. Contains a series of steps executed in order. A sequence can contain any number of tasks, but there is no option to branch off, skipping any of the tasks

wood stmeture 11. Continue to repeat actions while a test condition remains true.

Dual Alternative If (or 12. Define one action to be taken when the tested condition is true, and another action to pual Alternative sciection) be taken when it is false.

End-simultive statements. Designates the end of a pseudocode structure.

**BIOCK** 14. Group of statements that executes as a single unit.

Unithered programs 15. Programs that do not follow the rules of structured logic.

MMCTured programs 16. Programs that follow the rules of structured logic.

LOOP BODY 17. Set of actions that occur within a loop.

Spagnetti code 18. Snarled, unstructured program logic.

ryming input (priming) 19. Statement that reads the first input data record prior to starting a structured loop.

single Alternative Its 20. Take action on just one branch of the decision.

(or single alternative relections)
